

Safety Manager

Candidate must have safety experience in heavy highway and utility construction and a strong understanding of OSHA regulations and MUST be OSHA trained. Not required but it would be preferred if candidate had experience in loss prevention and workers compensation. Candidate must be a strong leader to help manage the Safety Department for an Operations division of 400 workers.

Please send your resume to Arnold Briones by e-mail at abriones@yantiscountry.com or call Arnold at 210.655.3780, ext. 1500.
